Meister Abrasives is a Member of semi

You need Meister Abrasives' comprehensive industry and process knowledge to engineer tomorrow's high-tech solutions for modern society.

Prime wafers

3D-TSV, MEMS and Ultra thin wafer

LED lighting

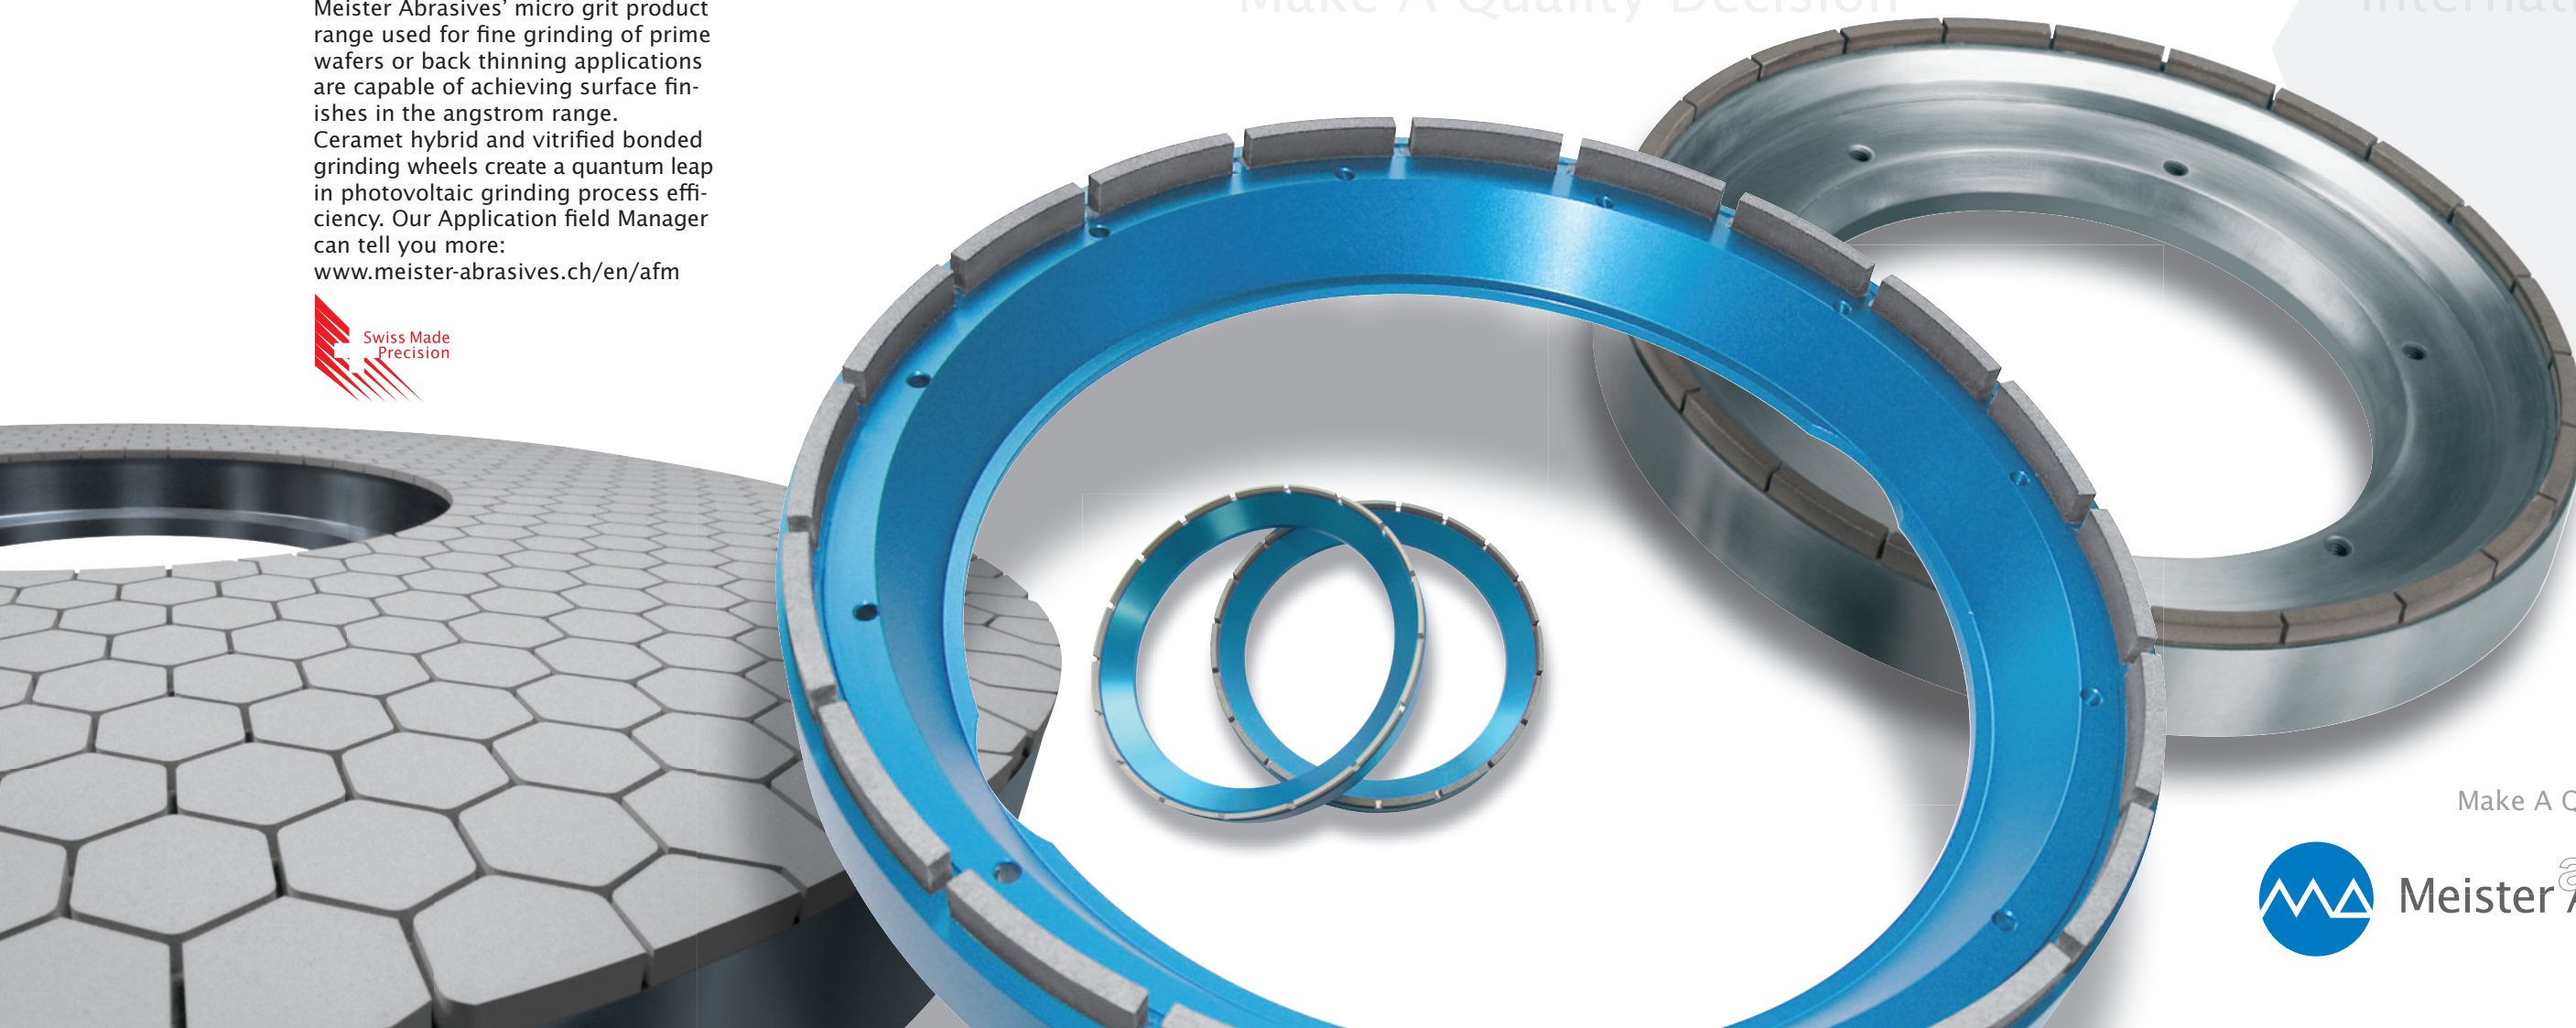

PV bricks

High-tech processes in the manufacture of semi-conductor components require high-tech grinding wheels. Meister Abrasives' micro grit product range used for fine grinding of prime wafers or back thinning applications are capable of achieving surface finishes in the angstrom range. Ceramet hybrid and vitrified bonded grinding wheels create a quantum leap in photovoltaic grinding process efficiency. Our Application field Manager can tell you more: www.meister-abrasives.ch/en/afm
